### **DETAILED ACTION**

1. Claims 1-5, 7-8, 10, 15 and 19-41 are pending in this application.

### ***Response to Amendment***

2. Applicant's amendment filed 02/06/2008 in response to the previous Office Action (08/06/2007) is acknowledged. Rejection of claims 1-18 under 35 U.S.C. § 112, first and second paragraph (items 7 and 8a-g) and the 101 rejection (item 12) have been obviated. Upon further review of the case, it is deemed necessary to raise new issues that need further rejection.

### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 19-41 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claims 19-41, the term "comprising" is an open-ended language. What else is present except the compound? It is recommended that applicants delete "comprising" to overcome this rejection.

### ***Claim Objections***

4. Claims 19-41 are objected to because of the following informalities: there is no comma or semi colon to separate one species from the other species in claims 19-41. It

Art Unit: 1624

is recommended that applicants separate one species from the next species by comma or semicolon and add "and" before the last species e.g. compound X; compound Y; and compound Z.

5. In claim 19 (page 10, line 2), the word "methylet-hyl" should read as "methylethyl".

6. Claim 1 and claims dependent thereon are rejected because of the methyl groups in the chemical structure. In claim 1 (page 2), the chemical structure of formula (I) has three methyl groups attached to the rings, but the  $-\text{CH}_3$  is not shown. The three methyl groups are shown by line and dashed line. It is recommended that applicants add " $\text{CH}_3$ " at the end of the line.
